

PRESS RELEASE

September 2020

Kalzip will deliver roof sheets for the City of Dreams in Limassol, Cyprus

Until 2021, the construction work on the City of Dreams in Limassol will be ongoing. By then it will be Europe's largest and Cyprus' only casino resort.

The hotel will be built in style of a pyramid and will have 16 floors and 500 rooms. Luxurious restaurants, conference centres, spa and health clubs will attract additional 300,000 tourists annually. The resort is also expected to become a landmark for the Limassol region.

Kalzip is involved with delivering around 9,600 square metres of Kalzip profiled sheets. The main roof of the "pyramid" as well as parts of the canopy will be realised with Kalzip 65/400 0.9 mm profiled sheets in stucco embossed.

The production of the roofing sheets is done directly on site.
Construction will start in October.
